

NEW

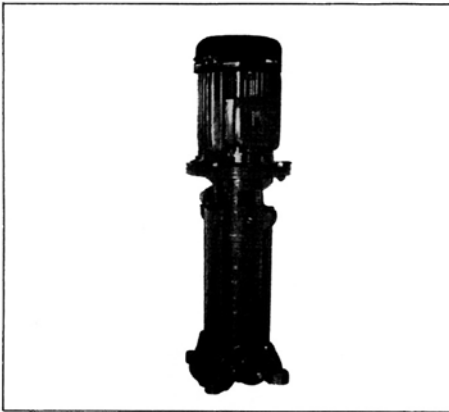

Vertical Multistage High Pressure Centrifugal Pump Series VMP 40,50,80

Suitable as:

- General Service Pumps
- Booster Pumps
- Boiler Feed Pumps
- Car Washing Pumps
- Special Liquid Pumps
- Automatic Pressure System
- Fire-fighting Pumps

- Noiseless Operation
- Easy Maintenance
- Excellent Performance
- Less Power Consumption
- Minimum Space

30	0.43	90	7.15
40	0.75	100	10.34

MATERIAL

Stage Casting	High Quality Cast Iron
Impellers	Bronze
Diffusers	Cast Brass
Seal	Carbon and Ceramic Mechanical Seal
Shaft	Stainless Steel

DESCRIPTION

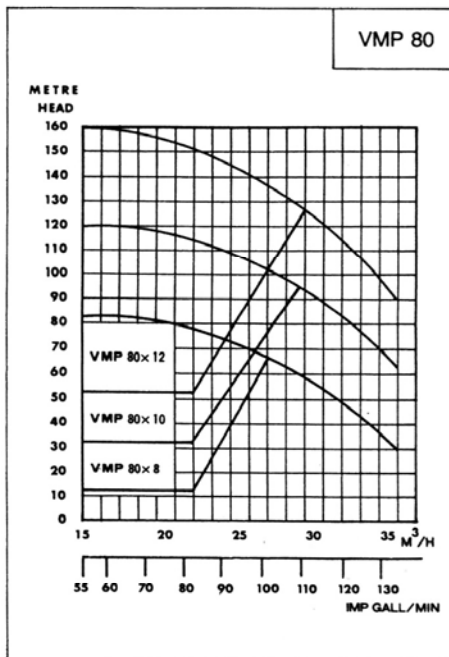

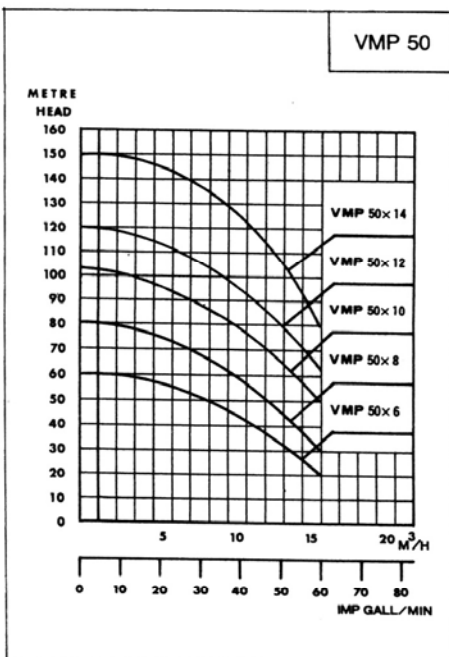

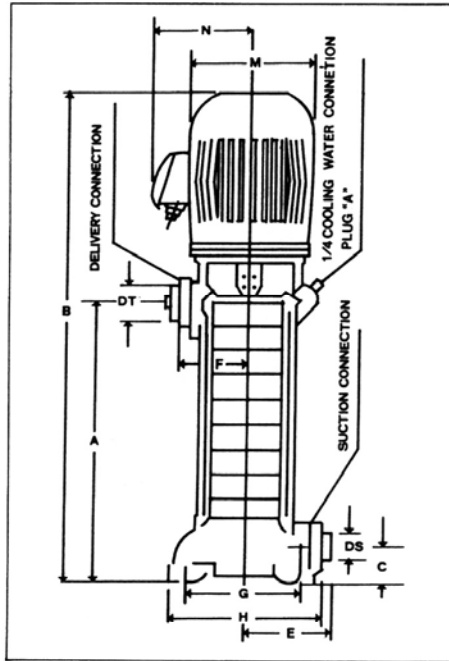

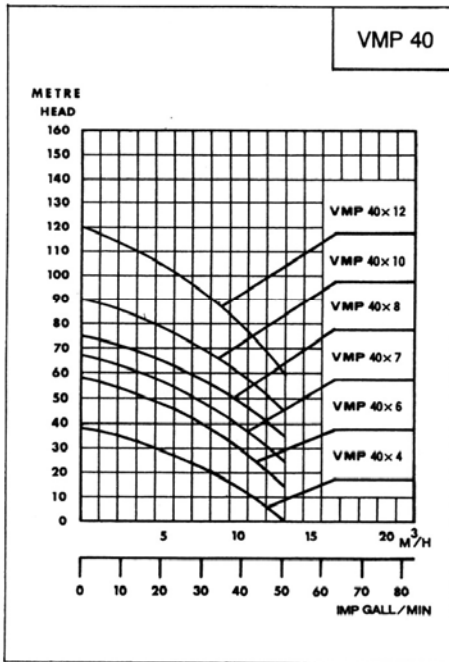

JXS High Pressure Vertical Multistage Pumps are multistage pumps of multiblock construction. The advantage of these pumps in comparison with horizontal pumps are that they can overcome much greater manometric heads and require very small space for installation. The driving motor rotor and the pump impeller are fastened by special coupling to a single piece driving shaft.

MOTOR

IEC standard B5 Flange

VOLTAGE

4KW/5.5HP below 3Ø220VΔ/380V Y 50Hz
5.5KW/7.5HP up 3Ø380VΔ/660V Y 50Hz
